

TRAVARTEC

LEADER IN THE PRODUCTION OF
ALUMINIUM WIRE

Travar Tec is located in the North of Italy, and for 30 years has specialized in producing aluminium and aluminium alloy drawn wires, for cold heading and electrical applications.

Thanks to high-qualified technicians, advanced equipment, and driven by commitment, Travar Tec offers a wide range of solutions for a large variety of uses.

Travar Tec is certified ISO 9001, ISO 14001 and ISO 45001.

Since 2018 Travar Tec is part of CUNEXT GROUP.

CUNEXT is an Andalusian business group that has spent years transforming copper to the highest quality, and today takes another step deeper into the aluminium industry. A group of companies that today have facilities in Cordoba, Madrid, Barcelona, Espiel (Córdoba) and Vitoria. Our goal: To be a leader in manufacturing for efficient power transmission and data materials.

OUR PRODUCTS

Aluminium wire produced in series 1XXX, 2XXX, 3XXX, 5XXX, 6XXX.

TEMPERS: O, H2 – H18, H12 – H38/T – Temper, or as required.

FINISHING: Travar Tec provides a perfect clean and bright surface. In case you need a specific surface we will make an effort to meet your requirements.

DIAMETERS: 0.16 mm up to 16 mm.

TOLERANCE: +/- 0.03 to 0.05 mm.

PACKAGING: Packaging: 100 – 500 Kg coils, 25 Kg catchweight coils, 1000 Kg cardboard box, 250 - 500 Kg coils on metal spiders, 100 - 1250 Kg metal or wooden reels.

Shrink - wrapped onto pallet.

Many customers have applications and handling techniques that are not indicated in this above. Please discuss your preference in order to make the effort to meet your requirement.

ATTRIBUTES

Travar Tec aluminium wire attributes:

Technical advice and development partnerships ensure constant improvement.

Wide variety of alloys, tempers and finishes.

Packaging and winding system.

Customer service and technical support.

Special wire surface treatment.

Wide range of packaging solutions.

Budget-friendly option, especially for large-scale applications.

Sustainability: more abundant in nature, making it an eco-friendly choice.

Recycling potential: highly recyclable, contributing to the circular economy.

Compliance with standards: meets industry requirements for safety and reliability.

CERTIFICATES AND APPROVALS

Quality management system acc. to ISO 9001:2015 for every manufacturing field.

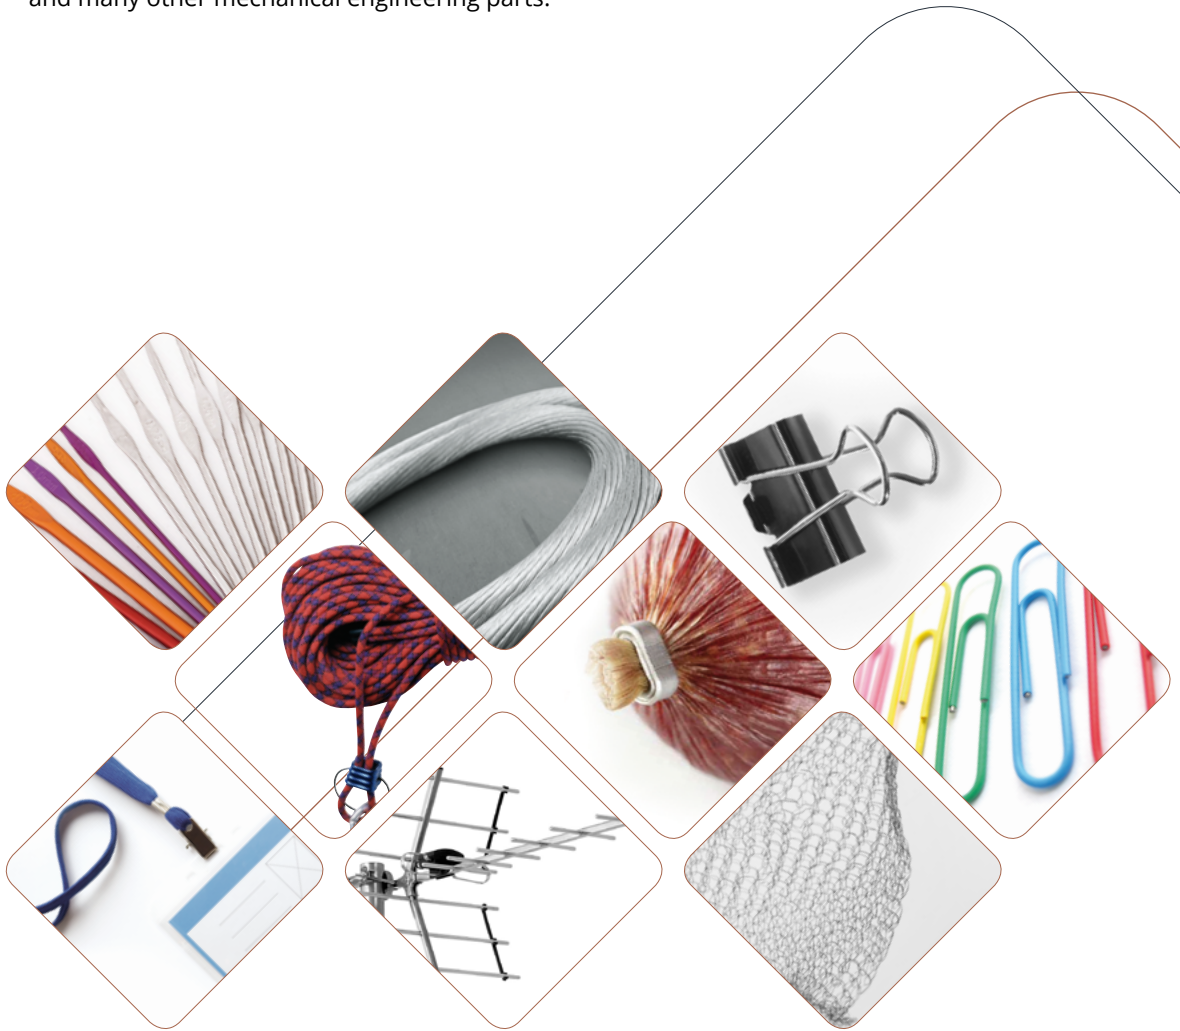

Environmental management system acc. to ISO 14001:2015.

Occupational health and safety manag. acc. to NLF/ILO-OSH 2001 and ISO 45001.

APPLICATIONS

Travar Tec is specialized in the production of drawn wire for different purposes: electrical applications, rivets, fasteners, clips, nails, bolts, staples, fences, mesh, screws, chains and wire for floral decoration and many other mechanical engineering parts.
